ON THE COVER:

**Astronomy & Meteorology:** First, the weather....In mid-May, Asheville area Club members assembled ten BMW's in Brevard for a mountain drive followed by a tour of the Pisgah Astronomical Research Institute (PARI). Even though a (retired) meteorologist was in our group of eighteen, we couldn't seem to avoid the rain. Showers, which followed us for a vast majority of the driving tour, as well as a downed tree (not unexpected for these roads), slowed us a bit, but did not discourage. Although we couldn't fully experience the cars capabilities, we did not let that stop us from enjoying the beauty and wonders of the western NC mountains.

## PUSHING IT TO PARI

A rainy, yet scenic cruise to enjoy to enjoy some astronomy & meteorology

Somehow though our timing while stationary was impeccable; we managed to stay dry during our meetup, at our mid-drive stop on the Blue Ridge Parkway at 5600 feet, and upon arrival at PARI. Rain or shine, the views on the Parkway in the Great Balsam Mountain region are stunning. On a clear day, the peaks of the Smokey Mountains, including Clingmans Dome, can be seen 35 miles to the northwest, and on overcast, rainy days the cloud formations are a spectacle. Fortunately, socializing in the clouds, and snapping some great photos was in the cards.

Our premier group photo was set with a backdrop of one of PARI's two 26 meter radio

telescopes. PARI ([pari.edu](http://pari.edu)) utilizes these and other smaller telescopes and detectors for research, training, and education in astronomy and related fields. The facility opened in the 1960's as a NASA ground station to track satellites, then it was utilized by the Department of Defense in the 80's to keep an eye on our adversaries. After several years of inactivity, PARI acquired the site and this non-profit organization began its mission.

The private tour of PARI began in the control center, where, of course, all the telescopes and instruments are operated.

***(continued on page 4)***

***(continued from page 2)***

Our tour guide, a PARI astrophysicist, taught us a few things: radio telescopes can operate in rain and clouds, but not in snow (M model?), and they rest pointing straight up because of wind and weight stresses (we started with the basics).

Also, they cannot detect country music transmissions (who knew?). In the NASA gallery, many historical space travel artifacts were on display, including parts of the space shuttle. PARI owns an extensive collection of gems, minerals, and fossils, many from North Carolina, which is apparently a rich source of these items.

Both space travel and astronomy rely heavily on the study of materials, including some that shrink instead of expand when heated and

therefore offer many capabilities. The meteorite gallery contained samples from the moon, mars, and many other sources. Most “meteorites” that are found on earth are actually “meteorwrongs” (they are plain ol’ rocks).

However, if you are lucky enough to have a real meteorite land on your house, it’s all yours. After a long day of driving and learning, and since we are in the brewery capital of America, we finished it off with brews and burgers at Oskar Blues Brewery. Among the members enjoying the beverages was one couple married 50 years and another celebrating their engagement. A BMW driving event sounds to me like a good way to celebrate!

# Summer Bimmer Dinners are Hot!

Heating up the roads with a ride full of familiar faces and some of our favorite places

Summer has clearly arrived in central North Carolina, which makes for fun times at our monthly dinners.

Actually, after 2.5 years of pandemic, we are only now cautiously restarting these events. The good news is that the nice folks at Farina Neighborhood Italian are thrilled to have us "back on track". We arrived in force on June 28th, with 24 of the Bimmer faithful ready to roll when the dinner bell rang at 6:30.

The owner met us as we rolled in, cheerfully greeting us by the pizza oven. The pandemic has been hard on many restaurants, including this one. They survived which is good news in and of itself. They are excited that we are back now, however, and so are we! The owner also has a BMW, which is a fun fact. And the manager bought a BMW for his mother, confirming that we are in good company.

After placing beverage orders, we had a chance to review the driving schedule for the balance of the year. Many great adventures await from Wilmington, to New Bern, to Ferraington Village. We also have two chances to hunt apexes at VIR, which is

always a hoot!

Once again, we had a chance to celebrate a birthday as "Her Majesty Nancy D" engaged her friends to collectively extinguish the candle on a perfectly prepared cannoli. Festive singing brings out the best in everyone!

All too soon, of course, dinner was a wrap. Time to fire the Bimmers for a lovely blast home. A great time was had by all. The end of one adventure is, in fact, the start of a new one. Let's rock!

# HELP WANTED

## **BMW CCA Corral at Virginia International Raceway (VIR)**

### **From the Desk of Paul & Brenda Dunlevy**

For several years, we (Brenda & Paul Dunlevy) have organized and hosted the BMW CCA corral at Virginia International Raceway (VIR) for the running of the IMSA series of races. This has involved negotiating with VIR for the tent size and location, the meals and costs, and other organizational activities. We have also carried Tarheel's PA system our fans and generator and set it up as well as assorted flags, banners and etc. Another task we have undertaken to keep costs down for our attendees is to procure water, drinks, and snacks for our guests. These we have transported up to VIR and distributed as required throughout the event.

Unfortunately, experience takes its toll. With almost 160 years of experience between us, we can no longer handle some of the physical aspects of this enterprise and we need help. This would involve transporting the PA system, acquiring drinks, water and snacks and transporting them to VIR, and distributing and replenishing them during the event. We can still help with negotiating and organization.

We have asked our friends at the National Capital Chapter (NCC) for their help with these details but we have had no success thus far.

If you are interested in assuming some of the responsibilities of this event, please contact **Paul Dunlevy** ([pauldunlevy@icloud.com](mailto:pauldunlevy@icloud.com)) and/or **Brenda Dunlevy** ([bedunlevy@icloud.com](mailto:bedunlevy@icloud.com)) for details or questions.

# BMW CCA Recognizes Excellence

## The Outstanding BMW Center & Independent Business Awards

We are incredibly fortunate in The Triangle area to have such a terrific Bimmer support network. This year we are pleased to present an BMW Car Club of America Outstanding BMW Center Award to Leith BMW and General Manager Sean Beach. We are also honored to present an Outstanding Independent Business Award to the Bimmer Performance Center LLC and Dan Connor.

These organizations provide outstanding support to both our members and for our events, year in, and year out. We appreciate their continued support and, of course, never miss an opportunity to pop in and kick tires, drink their coffee, and enjoy their company.

The presentation to Sean Beach at Leith BMW took place on June 9th, as a group from the Tarheel Chapter gathered at the dealership in preparation for a weekend adventure up along the Blue Ridge Parkway. Sean always welcomes us to start our events at the dealer, and provides coffee, other beverages and, on the occa-

sion of this visit, told us that the pandemic restrictions have been lifted ... so he can provide breakfast the next time we visit. Leith BMW is located at 5603 Capital Blvd, Raleigh, NC 27616.

The corresponding presentation to Dan Connor took place on July 6th, on the occasion of my annual service for our much loved and well cared for E36 M3. Dan also hosts our starting events for the club on a regular basis, and can be counted on for coffee and donuts when we come by the shop to kick tires and swap stories. His team provides terrific care of us as well, and today there were an E30 and an i8 on the racks, showing their breadth of experience. Bimmer Performance Center is located at 3200 Spottswood St #102, Raleigh, NC 27615.

Congratulations to Sean, Dan, and their most excellent teams!

- When: Saturday, **October 8<sup>th</sup>, 2022 at 10am**
- Where: Departure from Farmhouse Café, 320 Vintage Point Ln, Wendell, NC 27591. This is just off of US-264 (Exit 427). Come any time after 9am for tire kicking and coffee drinking. Driver / navigator meeting at 9:50.
- Who: Rob McIsaac is organizing the event.
- Objective: An opportunity to explore the shops, the sites, the food and the history of one of the crown jewels in Central North Carolina. There will be a great lunch along the way.
